

Change

What is the most significant change you have experienced in your current job?

How would you feel if your company relocated to another country?

What do you think about the layout of your office? How would you change it?

If you were in charge of training in your company, what skills would you focus on?

Do you think your company logo and slogan are up-to-date? How would you change them?

Are there any problems in the outside world which might affect your company in future? What are they?

Would you be happy if your company merged with another company? Why?

Would you be happy if you had a new boss? What would you like them to change?

Have you ever experienced a significant change in your company which went wrong? What happened?

What sort of technology do you use in your job? Does it need upgrading?

Who makes the important decisions in your company? Should this be changed?

If you were the chief executive of your company, what three things would you change?
